ABOUT VIETVR

VietVR is a first of-its-kind educational experience that immerses students in the history of the Vietnam and Cold War. Created in collaboration with teachers and students, VietVR uses a multi-modal approach that utilizes interactive timelines, holographic interviews, and a narrative story to help students learn.

The experiences within this application balance the fine line between education and entertainment, and have been aligned with curriculum objectives of AP US History, AP World History, and AP US Government in mind. We are excited for the future that education through immersive technology promises, and hope the stories resonate with you or your students as much as they have with us.

This project is dedicated to the men and women who lost their lives fighting for what they believed in during the tumultuous years of the Vietnam War.

VietVR was made possible by contributions from the following organizations:

Washington Leadership Academy

WLA is a new type of high school that prepares kids to thrive in the world and change it for the better.

[LEARN MORE](#)

XQ Initiative

XQ is a network of educators, students, families, & civic-minded citizens reimagining high school & fueling America's collective creativity to transform high school so every student succeeds.

WHAT'S INSIDE

ABOUT THIS GUIDE

This guide is meant to help you figure out the best implementation of the VietVR experiences in your classroom. Our guides are categorized by course and include worksheets, tie in activities, and other resources you can use to augment your lesson plans.

CLASSROOM IMPLEMENTATION

With over an hour of content, planning implementation of the VR application in your classroom is a must. In each experience breakdown, you'll be able to see the expected duration of each VR experience. We highly recommend taking some additional time to get students used to using the VR headset.

In addition to the included activities, this handbook also includes transcripts of all content and components included in the experiences. You can use these assets to create your own quizzes, courses, or lesson plans.

BADGE SYSTEM

To make it easier on teachers and students, we've created a badge system to make searching for relevant content within the experiences more accessible. These badges appear within the "I Was There" experience, and are also used within this handbook.

VR APPLICATION OVERVIEW

PLATFORM

The VietVR experiences are available as free downloads on the Oculus Store. The application requires an Oculus Go VR headset to use.

APPLICATIONS

In order to function properly, each of the three experiences must be downloaded as a separate application. If an experience is not downloaded on the device, a user will be prompted download it when trying to switch applications. The applications are named the following on the Oculus Store:

1. **TIMELINES: COLD WAR, VIETNAM, AND 1968**
2. **THROUGH THE EYES OF A PHOTOJOURNALIST**
3. **I WAS THERE**

1.

In the interactive timeline section, students are immersed in timelines that wrap around them, containing

In this experience, students will witness the Vietnam war for themselves through the eyes of fictional photojournalist, Carter Wright.

2.

3.

In this experience, students interview people who served in a variety over roles during the Vietnam war, along with two historians.

FAQ

HOW MUCH DOES THE APPLICATION COST?

Nothing! The application is free to use, download or remix under the _____ license. You can read more about it at the bottom of the page.

DO I NEED A HEADSET TO USE THIS EXPERIENCE?

Yes, the VietVR application is developed to run on the Oculus Go.

CAN STUDENTS REALLY LEARN USING VR?

Yes! As part of our project, we partnered with Foundry10, a data analytics company to run an experiment on learning with about the Vietnam War with this VR application. You can read more about our results here: _____

VR MAKES ME NAUSEOUS. IS THAT NORMAL?

Some people may experience dizziness or motion sickness when using VR. In this case, it may be best to assign an alternate activity.

DO STUDENTS HAVE TO GO THROUGH THE ENTIRE APPLICATION?

Not at all! We encourage teachers to use the experiences in whatever way best fits with his or her own lesson plans. But just in case, we've included some of our own to serve as a base from which to plan.
